ORTHODONTICS and IMPLANTOLOGY

LEONE palatal expanders have been known worldwide for more than 50 years and are now the most complete range of expanders in the market. The 620 series is a superior product made in various dimensions with many advanced features including laser welding of the extension arms into the body of the expander for greater strength and stability, and the elimination of oxidation and corrosion in the mouth. The highest standards that we apply in all the automatic manufacturing processes and quality control, allow us to confidently say that we are offering the best palatal expanders in the world today.
